

ANUSHA KHAN

9910025583 | anushakhan2709@gmail.com | LinkedIn | GitHub | New Delhi, India

Professional Summary

Final-year B.Tech CSE (AI & ML) student with hands-on experience in building AI-driven applications and optimizing production backend services during an industry internship. Research experience in XAI for healthcare, focusing on trustworthy and interpretable AI systems. Demonstrated leadership as a Student Placement Representative and Technical Lead, driving technical collaboration and supporting peers in their professional development.

Education

B.Tech – Computer Science Engineering (AI & ML) | Sharda University | 2023 - 2027 | CGPA: 8.76

Research Experience

Explainable AI for Tuberculosis Detection & Classification | Ongoing Research

- Developing a deep learning-based chest X-ray system using TensorFlow/Keras and EfficientNetB0 to detect and classify Tuberculosis against Healthy and Non-TB conditions.
- Implementing Explainable AI (XAI) techniques to interpret model predictions, improve transparency, and support trustworthy AI-assisted healthcare decision-making.

Internship Experience

AUK Commerce Tech Pvt. Ltd., Gurgaon | Tech Intern – Backend Development | May 2025 – July 2025

- Designed and optimized backend services using Java and Python, improving system stability and deployment efficiency.
- Built and integrated RESTful APIs for user management and data ingestion workflows.
- Optimized MongoDB indexing strategies, reducing average response time by 50%.
- Implemented Redis caching to reduce API latency and minimize repeated database queries.
- Contributed to Agile workflows, code reviews, and documentation; recognized by engineering leadership for back-end execution quality.

Projects

MIRAN | Node.js, Express.js, Firestore, JWT Authentication, Docker, Render

- Developed a multi-seller e-commerce platform featuring real-time buyer-seller price negotiation through secure REST APIs, enabling dynamic deal workflows beyond traditional fixed-price marketplaces.

Aaj Kya Pehnu | Python, PyTorch, FastAPI, Docker, PostgreSQL, Redis, MinIO, YOLO

- Developing an AI-powered smart wardrobe platform that automates garment detection, attribute extraction, and digital wardrobe management through a scalable containerized backend architecture.

Leadership Experience

Student Placement Representative – Sharda University | Aug 2025 – Present

- Coordinate between students and recruiting organizations.
- Assist peers with technical readiness and placement preparation.

Tech Lead – Open Source NCR Community – Sharda University | Oct 2025 – Present

- Mentor contributors on backend projects and Git workflows.
- Lead technical discussions and promote collaborative development culture.

Certifications & Achievements

Winner – Internal Smart India Hackathon (SIH) 2025 | SSCSE, Sharda University (Sept 2025)

Built a Smart Community Health Monitoring and Early Warning System for Water-Borne Diseases in Rural Northeast India.

Oracle Java Foundation Certificate (6th Nov 2024)

TECHNOKRATS 4.0 Coding Competition (5th Aug 2024)

Full Stack Java Development (Udemy) (17th March 2025)

Skills

Languages: C++, Java, Python, JavaScript, SQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS

Backend: FastAPI, Node.js, Express.js, REST APIs

AI/ML: Machine Learning, Deep Learning, Computer Vision, PyTorch, YOLO, OpenCV

Generative AI: RAG, AI Agents, LLMs, LangChain, LangGraph

Databases: PostgreSQL, MySQL, MongoDB, Redis

Tools & Platforms: Docker, Git, AWS (EC2, S3), Postman
